Chairman Message

We at KMPL are deeply focused on key areas of specialization, with world standard expertise and potential across the entire breadth of copper & brass fittings components manufacturing.

The 40 years history of KMPL is characterized by a focus on innovation, disciplined investment, superior execution and solid delivery of performance with integrity towards our customers, our employees and society.

Suresh Kumar Jain (Chairman)

M.D. Message

We must strive to be the best in all sphere of activities i.e. Best in Quality, Best in Efficiency, Best in Cost, Best in deliveries and Best in Service. This means – Best in Class. Our goal is to incentivize the supply to the biggest groups and defend our own profile of manufacturers.

Unveil the culture of consistency, growth and acknowledgement with KMPL.

Samridhi Jain (M.D.)

Vision

To cater each and every demand of the customer and give them full satisfaction because we believe in the fact that "THE CUSTOMER ALWAYS COMES FIRST". To enhance customer satisfaction by delivering consistent quality products with active involvement of all employees and continuous improvement in its effectiveness, and to be the most preferred Brass and Tubing components manufacturer in India.

Mission

To work in an environment with perfect blend of planning & execution for meeting the challenges of changing environment & competition. We commit ourselves to offer quality services with safety, integrity, flexibility & innovations. We value our manpower & train them to work professionally with team spirit. Our mission is to be the best brand under the name of "KMPL" and to see ourselves in the international market within the next decade.

Why work with KMPL?

Through our years of experience, we promise the quality of our products, the best price, the best choice, enthusiasm, product knowledge and understanding specific needs of our customers. Besides this, our fair dealing, ethical business practices and easy payment modes make us the first choice of the clients.

SUSTAINABILITY APPROACH

LASTING LEGACY HISTORY OF KAMLA METALS PRIVATE LIMITED

To build strong relationships, one has to firstly gain respect in the eyes of its customers. Most of the respect we have attained comes from our long term commitment to quality.

This dedication has allowed us to deliver the high quality copper & Brass fittings on a timely basis and at a fair price. This journey doesn't end here, we will continue to search for a new ways to improve, to deliver higher quality products to our reputed valued customers and most importantly, maintain the highest ethics in our pursuit of Excellence.

Consistently stepping up to the challenge of manufacturing products that are world-class, reliable and cost efficient for over 40 years, we are still raring to go.

CORPORATE PROFILE

We, "Kamla Metals Private Limited" are involved in manufacturing and supplying a comprehensive range of Copper Fittings, Brass Fittings, Copper & Brass Tubing Assemblies, etc. under the brand name of "KMPL" for our valued clients. Kamla Metals Private Limited is one of the leading Copper & Brass Fittings manufacturers in India.

Leading expertise in copper & brass fittings components for over 40 years has enabled the KMPL name synonymous with exceptional service, quality and zero defect enabling precision. This is the story of roots, the seeds of growth, the fruits of glory, and the continuous evolution that has made KMPL what it is today. Consistently stepping up to the challenge of manufacturing products that are world-class, reliable and cost efficient for over 40 years, we are still raring to go.

We supply OEMs across India. We can manufacture based on your design or design the product for your application. We have one of the largest tubing and fittings manufacturing setups in PAN India, covering the major cities.

The Largest Brass & Copper Fittings Manufacturer in India and the proud worldwide owner of the brand KMPL, Kamla Metals Private Limited is committed to superior quality and prompt delivery at the best possible prices.

Kamla Metals Private Limited continues to uphold the precedence of precision set by the core group. Ongoing investment in modern equipment has led to unrivalled capacity potential. KMPL is reputed for its cutting edge technology, established quality processes and capabilities owed to a legacy of perseverance and forward looking attitude.

INNOVATION
BEYOND IMAGINATION

INFRASTRUCTURE

Our Core Competence

We have constructed a well-developed infrastructure that is equipped with all the state-of-art machines and equipment. Our infrastructure is segregated into various departments like advanced production facility, testing laboratory, Research, and Development unit, and a spacious warehouse, which enables us to manufacture a high-grade range of these products. We have equipped our manufacturing unit with the latest machines, testing laboratory and R & D unit improved contemporary machinery, robust construction and these machines are operated by our most efficient and skilled professionals. We have a modern infrastructure set up. And, our unit is well connected with shipment modes that enable us to timely delivery of our heavy-duty products at the customer's end.

Our set up also has the large warehouse that enables our persons to store the bulk quantity of products and though meets the needs of the customers. Our sections are: Manufacturing, Quality controlling, Warehousing & packaging, Logistic, Administrative, etc.

QUALITY POLICY

We, at Kamla Metals Private Limited - An ISO 9001:2015, ISO 14001:2015, ISO 45001:2018 & RoHS Certified Company, are committed to increased satisfaction of our customers, suppliers and employees through continual improvement of our Quality Management System. Kamla Metals Private Limited is proud to be a symbol of best quality and state of the art technology in the industry.

We, at Kamla Metals Private Limited are having a well defined quality policy for maintaining the quality of our product and the quality system management. Our product quality is maintained through a defined quality assurance plan, from testing raw materials to finished products, implemented in the organisation. Our team of QA personnel ensure that products being manufactured in house or at the vendors is correct the first time every-time. Further the inspection system is controlled with the help of precision drawings as well as equipments like go/no-go gauges and vernier caliper for assuring correct dimension accuracy.

KPML is committed to:

- Supply quality products
- Timely delivery
- Enhance Customer satisfaction
- Continual improvement in Quality management system
- Adhere to applicable regulatory and statutory requirements

Quality Parameters

The whole inspection system is controlled with the help of:

Drawings, Gauges, Height Gauge, Micrometer, Vernier Caliper, Other technical equipment

These and other innovative production measures allow us to produce the range with accurate dimensions. Further strict control at each of the manufacturing stages also assures customers of high consistently standard, which has helped us to also earn "Preferred Supplier" status.
